

The Japanese boxing brand, EasyChange for BOX, serves as a bridge to achieve one's dreams and to pursue our own.

# EasyChange®

If you never give up, you will achieve your dreams.

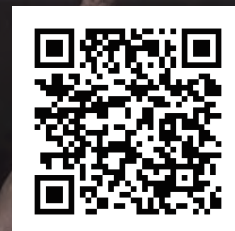

Many professional boxers actively use EasyChange for BOX products. EasyChange improves and devises products based on people's impressions who actually use the products. EasyChange aims to manufacture and provide only the best products possible.

The brand's slogan, "If you never give up, you will achieve your dreams", is an encouraging call to boxers; and, an inspiring motivation to EasyChange.

In order to provide and develop quality EasyChange for BOX products, there is a careful consideration on the ideas of "determining the challenges of manufacturing" and "making EasyChange a globally known brand for superb boxing products".

EasyChange believes that boxing is a dream held by many young ones and serves as a way to foster discipline and impart good principles and logical reasoning. With this, proceeds from EasyChange for BOX are used to fund children's education and support second careers for local boxers in impoverished countries. Together as one, let us continue chasing our dreams!
